2 HAZARDS IDENTIFICATION

Classification of the substance	Classification according to Regulation (EC) No 1272/2008 [CLP]
Warning statement	Warnings
Precautionary statement	not suitable for consumption (contains THC) P101 - If medical advice is needed, have product container or la-bel at hand. P102 - Keep out of reach of children. P262 - Do not get in eyes, or on clothing. P263 - Avoid contact during pregnancy and while nursing. P314 - Get medical advice/attention if you feel unwell.

This preparation contains hemp essential oils and should not be considered as alimentary hemp oil.

3 COMPOSITION/INFORMATION ON INGREDIENTS

Substances Not Applicable **See Mixture**

Mixture

Component	N°. CAS	Concentration	Symbols	Risks
Olive Oil	8001-25-0	50-90%		
Cannabis Sativa L . extract	89958-21-4	10-50%		
MCT oil	65381-09-1	10-96%		

4 FIRST AID MEASURES

4.1 Description of first aid measures

Eye contact Rinse with water and seek medical advice if irritation develops
Skin contact Rinse with water or acholic solution to dissolve resin, consult a doctor in case of irritation.

4.2 Most important symptoms and effects, both acute and delayed

After eye contact May cause eye irritation

4.3 Indication of any immediate medical attention and special treatment needed

N/A

5 FIREFIGHTING MEASURES

Means Treat as oil; do not spray water, smother or use a Class B or K chemical extinguisher.

6 ACCIDENTAL RELEASE MEASURE

6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency personnel

- Remove all sources of ignition.
- Do not get in eyes, on skin, or on clothing.
- Use personal protection equipment.

For emergency responders Wear personal protection equipment (refer to section 8).

6.2 Environmental precautions

- Do not allow to enter into surface water or drains.

6.3 Methods and material for containment and cleaning up

Methods and material for containment - Prevent spread over a wide area (e.g. by containment or oil barriers).

Methods and material for cleaning up - Absorb with liquid -binding material (e.g. sand, diatomaceous earth, acid- or universal binding agents).

- Clear contaminated areas thoroughly.

- Clean as soon as possible any spreading, by collecting with absorbent product.

- Take up mechanically.

- very sticky resin; rinse with acholic solution to dissolve

Inappropriate techniques

- No information available.

6.4 Reference to other sections

- Disposal: see section 13

- Safe handling: see section 7

- Personal protection equipment: see section 8

7 HANDLING AND STORAGE

Precautions for safe handling

the olive oil settles at low temperature, which makes the solution more compact; it can be heated in a water bath (max. 50°C) before use. Shake before use.

Follow label warnings. Wash hands and other exposed areas with mild soap and water before eating, drinking, smoking and leaving work.

Conditions for safe storage

Keep the bottle tightly closed. Protect from sunlight (UV). Store in a well-ventilated place, keep in a cool place, refrigerate after opening. Keep out of reach of children. Keep away from incompatible materials such as food.

8 EXPOSURE CONTROLS/PERSONAL PROTECTION

Eye Protection

Wear glasses.

Hygiene

Wash after work and before eating, smoking and using the toilet.

Wash promptly with soap and water in case of skin contamination. Remove contaminated clothing promptly. Use a hand cream to avoid degreasing and cracking of the skin.

9 PHYSICAL AND CHEMICAL PROPERTIES

Aspect

Liquid. Fluid. Oily

Color

Dark Brown

Odor/taste

Typical Hemp, Bitter

Description of solubility

Not Miscible with water. Miscible with: Alcohol

10 STABILITY AND REACTIVITY

10.1 Reactivity

- This material is considered to be non-reactive under normal use conditions.

10.2 Chemical stability

- Avoid: Light, Heat, Oxygen (oxidation)

- The product is chemically stable under recommended conditions of storage, use and temperature.

10.3 Possibility of hazardous reactions

- No hazardous reaction when handled and stored according to provisions.

10.4 Conditions to avoid

- Remove all sources of ignition

10.5 Incompatible materials

- Strong oxidizing agents

- Reducing agent.

11 TOXICOLOGICAL INFORMATION

11.1 Information on toxicological effects

Acute toxicity

- Not classified

Toxicity :

- Mixture

LD50 oral (rat)	No data available
LD50 dermal (rat)	No data available
LD50 dermal (rabbit)	No data available
LC50 inhalation (rat)	No data available
LC50 inhalation dusts and mists (rat)	No data available
LC50 inhalation vapours (rat)	No data available

- Based on available data, the classification criteria are not met.

Skin corrosion/irritation	- Not classified
Serious eye damage/eye irritation	- Not classified
Respiratory or skin sensitization	- Not classified
Germ cell mutagenicity	- Not classified
Carcinogenicity	- Not classified
Reproductive toxicity	- Not classified
STOT-single exposure	- Not classified
STOT-repeated exposure	- Not classified
Aspiration hazard	- Not classified

12 ECOLOGICAL INFORMATION

Toxicity :	- Mixture
Degradability	- This cosmetic is easily biodegradable .

13 DISPOSAL CONSIDERATIONS

Waste treatment methods	Confirm methods disposal with an environmental engineer and according to local standards.
--------------------------------	-------------------------------------------------------------------------------------------

14 TRANSPORT INFORMATION

Special precautions for user	Do not expose to a temperature higher than 30° C
-------------------------------------	--------------------------------------------------
